12th International Symposium on Endovascular Therapeutics
29th - 31st March 2017 - Barcelona - Spain
School of Medicine, University of Barcelona

- Lower limb revascularization evidences
- Wound healing adjuvants
- Pharmaceutical adjuvants
- Carotid stenting update
- Upper limb revascularization
- Visceral arterial management update
- Venous disorders (SITE Venous Forum-SVF)
- Vascular access issues
- Innovative therapeutic and diagnostic technology
- AAA management concerns
- TEVAR management concerns
- Ascending aorta and arch endovascular approaches
- Heart interventionism hot evidence
- Neuro-intervention innovation
- Global endovascular economic analysis
- Challenging cases
- Disaster cases
- Free papers for competition
- Poster session for competition
- Recorded live cases

www.sitesymposium.com
Status update on main endovascular focuses in one working day
Two conductors and 5 invited international experts for each focus
Review of major clinical limitations and unmet needs
No formal lectures or presentations
Confidential Sessions: What is coming up from the industry’s pipeline?
Identifying future directions
Direct interaction with the expert audience and industry leaders
All recorded and uploaded into endovascular.tv
No exhibit area is allowed
Electronic response system is provided
Life streaming transmission (except for the Confidential Sessions)
Limited number of participants (up to 150)
AORTIC endografting: what is needed for a definitive consolidation?

www.sitesymposium.com
Objective:

to identify current limitations and propose future directions
Main topics

• What EVAR needs to be considered as the first choice for AAA repair?
• What TEVAR needs to be considered for all Type B dissections?
• What are the major limitations for endovascular repair of para and supra-renal aneurysms?
• Is centralization needed for EVAR/TEVAR?

www.sitesymposium.com
Panellists

• Michael Dake, *Vascular and Interventional Radiologist*, Stanford, USA
• Eric Verhoeven, *Vascular Surgeon* Nuremberg, Germany
• Nilo Mosquera, *Vascular Surgeon*, Orense, Spain
• Jorge Fernandez-Noya, *Vascular Surgeon*, Santiago de Compostela, Spain
• Gustavo Oderich, *Vascular Surgeon*, Rochester, USA
• THE AUDIENCE
